INBTOTAL:

The Breck Foundation is raising awareness for playing safe whilst using the internet.

Breck Bednar was a 14 year old boy, from Caterham, Surrey, who loved technology and on-line gaming. He was groomed via the internet & sadly murdered on February 17th 2014 by someone he met on-line. The Breck Foundation has been set up in his memory to help other young people to enjoy playing and socialising on-line but to be aware of some simple rules to stay safe.

Remembering that the friends you make on-line are not like your real friends. "Play Virtual / Live Real"
